

### Polyethylene Grain Sample Bags

Seedburo's "poly" bags are ideal for retaining samples or for sending samples for inspection or evaluation purposes. Can be used separately or as a liner for our canvas grain sample bags (see below). Made of tough, transparent polyethylene, these bags will not become brittle. Bags are odorless, non-toxic and sealable with cable ties or twistie ties. Poly bags sold in lots of 100 or 1000's. Available in sizes specified or in rolls (specify width and thickness).

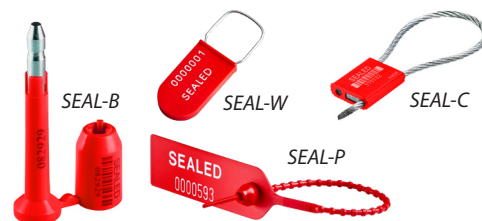

620 with 624 Twistie Tie

Poly Bag, 8½" (W) x 18" (H) x .003 ml Thickness.....	<b>No. 622</b>	Plastic Cable 8" 40 lb Ties (pkg./1000).....	<b>No. 626-ZIPTIE</b>
Poly Bag 6" (W) x 12" (H) x .006 ml Thickness.....	<b>No. 628</b>		

### Seedburo Container, Barge and Bag Seals

Seedburo container, barge and bag seals are required by the USDA for all direct export trade of grain out of the country. The seals are attached to the container, barge door or bag opening to provide a tamper-evident seal. All of the seals meet the ISO-9001:2008 requirements. Seals sold in lots of 100. Customized seals are available in lots of 1000 - call for quotation.

Bolt Lock Seal 3.67" (L) x 0.41" (W) with Code and Barcode .....	<b>No. SEAL-B</b>	Plastic Seal 16" (L) x .14" Diameter Plastic Band with Code .....	<b>No. SEAL-P</b>
Cable Lock Seal 10" (L) x 4mm Diameter Cable with Code and Barcode ...	<b>No. SEAL-C</b>	Wire Seal 3" (L) x 3/64" Diameter Wire with Code .....	<b>No. SEAL-W</b>

### 'Placed In Service' Seals

The Seedburo tool-less red roto seal provides a secure means of applying the tamper proof wire seal to a scale, moisture meter or other laboratory device. The seal provides a sequential number for record keeping and identification. The soft braided 7 x .009" stainless steel wire will pass through most seal screws or slide brackets used. The SEAL-KIT includes a bag of 100 seals which are sequentially numbered and a 50 ft length of the stainless steel cable.

Seedburo Seal Kit 100/Bag with 50' Wire.....	<b>No. SEAL-KIT</b>
